TRANSPORTATION

A. If parents/guardians provide transportation to, or allow another adult or their son/daughter to provide transportation to or from scheduled co-curricular events, including practices, they must be aware that the following policies are in effect:
   a. Where a parent/guardian provides transportation to their son/daughter to or from a scheduled event, including practices, the parent/guardian shall assume all resulting liability, and the school shall assume no liability.
   b. Where a parent/guardian, or another adult designated by a parent/guardian transports students other than their own to or from a scheduled event, including practices, the parent/guardian or designated adult transporting the students shall assume all resulting liability, and the school shall assume no liability.
   c. I further understand that as an adult student or as the parent/guardian of a student participating in this sport, it is my responsibility to make sure the student has safe transportation for these contests and/or practices, and when the District does not provide transportation, any District duty of supervision is limited to the duration of the contest/practice itself.
   d. If transportation is provided back to the District school site, students must also return to school via the same mode of transportation unless parent(s) request permission to take the student home in their private vehicle. Said request must be in writing (includes electronic communication). Only the legal parent(s) or guardian(s) will be given this prerogative.
      i. Legal parent(s) or guardian(s) may request permission to have his/her student ride home with the parent/guardian of another student. This request must be made in writing (includes electronic communication), and only the legal parent(s) or guardian(s) will be given this prerogative.
B. Information related to District vehicle use and the use of private vehicles to transport students can be found in the School Board Policy manual.
   a. Reference policies 751 and 752
